C. R. James Is Found Dead At Court House

Superintendent Of Building Is Discovered Dead In Basement Early This Morning

Making his rounds of the court house, after hearing a noise about 2 o'clock this morning, David Felton, of 1048 Maryland avenue, night custodian of the County Court House, discovered the lifeless body of Clifford R. James, aged 44 years, of 1001 Winslow avenue, superintendent of the building lying in a pool of blood in the cellar of the building. At his side was a .22 calibre rifle, and there was a bullet wound in the right side of the head.

Mr. Felton notified Sheriff Frank L. Coen, who in turn communicated with the police, Officers George Kennedy and Ralph Criswell responding. They in turn notified the coroner's office.

in the temple area.

Mr. James had evidently let himself into the building with his own keys, and obtained the rifle from his cupboard in the basement.

Born In New Castle He was born in New Castle, July 1902, son of the late William and Rachel Johns James. He is sureved by his wife, Mrs. Myrtle Glass James, and three children, Mrs. Clifford Robe, of New Castle, and William R. and David Elmer, at home; a sister, Mrs. Carl Jewell, of New Castle; and a brother, Richard L James, of Rock Creek, O. He was a member of the Firs

Congregational church, Mahoning Lodge No. 243, F. and A.M., the New Castle Lodge of Perfection, and True Ivoites of America. The body has been removed to the Joseph B. Leyde Mortuary, corner of Highland and Winter, where friends will be received tonight and Thursday night, from 7 to 9 p.m. Funeral services will take place from the Leyde mortuary on Friday afternoon at 2:30 o'clock, in

Fly May Follow Dodo

Those who compose the present generation may some day tell their children of the era when flies infested houses and people kept a weapon, then known as a fly swatter, handy to crush the pests. The other things. The girl 7 wipes children, if dutiful and imaginative, will express astonishment that such dishes, carries out garbage, does winged insects once lived in homes and that cave-man tactics had to some small ironing, cleans bowl and be resorted to as a means of combating them.

The good news that the fly may be traveling the path of the dodo him and the mastodon comes from Dr. C. H. Curran, associate curator of the insect and spider department of the American Museum of Natural History. His statement was based on the results of carefully-planned experi- loves to clean, rearrange the furments in fly control conducted at Bear Mountain State Park in New York | niture, and now that she is out of since June, 1945. It is alleged that these experiments, in which careful school, she and I have taken the spraying operations embodying a DDT residual-type spray combined with other elements fatal to the insect were employed, have practically cake than most women. eliminated flies from the entire Bear Mountain Inn and administra-

Of course, no scientist is expected to issue a statement without dust and run the sweeper then, ernment wants no comrade Flash Gordon overcoming all obstacles. adding a reservation of some kind, and Dr. Curran is no exception. He most generally, I am shoved into a has been an outstanding authority on flies and their control for more chair and told to look pretty. than a quarter of a century. He warns that while the tests indicate that a solution to fly problems finally has been found, the program developed and on week ends. at Bear Mountain required a trained scientific staff and careful analysis of specialized local conditions.

The effectiveness of the program, he says, depended not only on most children help their mothers, the improved materials used, but also upon methods of application mate calls, they tell the playmate or three acts. perfected after continuous experimentation on the grounds in the last to wait till they are through, of two summers. He said the program consisted of two spraying operations in the late spring and early fall.

Perhaps when and if all the flies have been eliminated from the children, talking, and planning and world, it will be ascertained whether their purpose was principally to so does my husband. I can hear act as pests or whether they had some more profound reason for their him sometimes answering a million existence. Flies often appear to be a symptom that something is wrong with sanitation. When the symptom is gone, it is possible that some people will pay less heed to main enance of sanitary conditions. But to get rid each is given a certain amount of of flies will be a blessing in many respects, including the elimination of mency to spend. Their dad sees that stories and jokes based on the insect's proclivity to annoy bald-headed

Republicans, therefore, have considerable warrant for the optimism share in the home responsibilities, scrapers and tunnels, they feel and for their belief that they face a genuine opportunity to win Thousands of other families would So he is going to live in the countries they feel and for their belief that they face a genuine opportunity to win be belief that they face a genuine opportunity to win the countries there are very few trees there are Roosevelt's. Governmental extrav- try for months, at the same time somewhere between being a kill-joy control of both branches of Congress this fall. On the face merely of political conditions in the country since 1932 this seems like a difficult assignment. For 14 years the Republican party has been in the minority and some of the time in an utterly hopeless and helpless minority.

Yet to so great a degree has the party alignment in Congress been narrowed that all Republicans need to do next November to capture control of both House and Senate is to elect 26 additional representatives and nine more senators. Considering the situation as it exists today and as it gives promise of moving in the next 60 days, this task does not appear beyond them.

More Food Against Hunger

Best part of the news that world wheat output for the year is rid of back seat drivers. expected nearly to equal the prewar average is that areas now suffering shortages or famine are likely to produce the major part of the 13th typhoon of the season. But the

States might be, the problem of transportation and distribution is one Paris that peace conference may that would inevitably defeat our efforts to thwart starvation in the remote districts, especially in parts of Europe where railroads and other means of transportation have been destroyed by war. It means, too, at the next desk may now be re- crowded restaurants and movies. Gandhi halls installation of the despite the disheartening political news from all the famine-ridden the president of the United States. York. countries, that they are slowly climbing back on their feet.

The United States has put forth great efforts already to feed the fishing starving and more are needed, for, despite the healthful rise in production, stocks have fallen so low in most importing countries that total thought beans were poisonous. We supplies will not greatly surpass those of last year.

Food for the starving is still part of this country's obligation to its own conscience, quite apart from any political implications of the job. It would be a fine thing, however, if all the peoples who are getting the henefit of our assistance were told by their leaders who their bene-

Read These Figures

Cur disgraceful fire loss record continues to worsen. According to the National Board of Fire Underwriters, estimated losses for July lotalled nearly \$41,000,000-an increase of 20 per cent over the same come through with his annual month last year. This was a new high record for the month.

Our bill for waste by fire for the first seven months of the year stands at the stupendous figure of \$338,304,000. That is more than was recorded in any year from 1933 through 1942. And losses for the 12month period ending July 31 amount to well over half-a-billion dollars. have time to wave their tails at him Read those figures again. Try to visualize them in terms of homes, as they scoot by.

sinesses, products, labor savings. Think for a moment of the 10,000 1946 if present carelessness continues. Then ask yourself if you, because like a giant bowl of corn flakes. of ignorance, carelessness or just plain inertia have been responsible for part of the loss—or may be responsible for part of the loss that will it's going to be an early (and late) this jump up the ladder. It's always a pleasure to watch a rellow climb ary perti. If he does not weaken warning the Allies that Japan may propaganda. occur next month or next year.

your problem just as much as it's anyone else's problem. And your property and your life are involved.

This year, due to the record loss, efforts to make us conscious of what is happening will be redoubled during Fire Prevention Week. If we are to lick fire, we must think of fire and fight fire every week of the year.

Here is a prophecy for the books: Twenty years from now someone coming out. will start a movement to get equal rights for men.

it was the other way around.

Reduction In U. S. Expenses Discussed

WASHINGTON, Sept. 4. SOME weeks ago in a speech before Virginia Republicans Senator Robert A. Taft, of Ohio, declared that President Truman was wholly insincere in his advocacy of a reduction in governmental expenses. "It is." said Mr. Taft, "ridiculous for him to talk about economy when, under CIO pressure, he has favored every suggestion for expenditure that has been presented.'

ALMOST immediately following that blast from Senator Taft, Mr. Truman not only began to taik economy in a much stronger voice than before but he began to do things about it well calculated to persuade of his sincerity. To Congress before it adjourned, to the press at several White House Collferences, to his department heads and bureau chiefs he let it be known that he is extremely earnest in this matter and that, so far as government spending is concerned, wants-and intends to have-the co-operation of every man in the Administration-or know the rea

CONVINCED that inflation is very real danger and just about the worst thing that can happen to the country, the President is said to feel that it is his first duty to averthis disaster-if it can be averted. Conceiving that the emasculation of the OPA act has enhanced the into take every other possible antiinflationary step. Former New Castle Woman Back After Visit To France

Mrs. F. L. Wimer Of Washington Makes Trip To Visit Relatives In Europe

WASHINGTON, D. C., Sept. 4.-Mrs. F. L. Wimer, formerly of New Castle and now of Washington, D. C., has returned to this country after a two month visit with her relatives in Paris and other sections of France.

Mrs. Wimer found her aged mother and a brother and sister recovering from the hardships of the war, but considerably undernourished. They had lost virtually all of their personal possessions during the German occupation and at times had been forced to subsist on dog meat sausage and fish heads First 'R' Month and entrails. Mrs. Wimer reported that the food situation was still extremely critical and that such items as pigs' ears frequently represented the meat available as a family's weekly ration.

The former New Castle woman to Northeast fish markets as well York area. toured 6.000 miles through the battle areas and found that most able to recover from the economic been plunged.

TOKYO, Sept. 4 .- (INS) -Two powerful Japanese family industrial empires were linked today with the Manchuria and China.

Prosecution evidence was introduced at the international war this nervous distress. It works this way: crimes trial of 27 accused Jap war Everytime food enters the stomach a duced at the international war leaders showing the Mitsubishi combine handled opium distribution in Japan and Manchuria, while the Mitsui company catered to addicts in central and south China.

The prosecution evidence was contained in Japanese foreign office

Sandusky of Sheridan, Wyo., introduced a multitude of other documents showing that the Japanese, despite signing anti-narcotic agreements, fostered the sale of opium and heroin in China and Man-

Sandusky read a League of Nations report which charged Korean women operating under a Japanese concession sold heroin to addicts in Tientsin, Chiian, for "ten cents a

A Japanese prosecution witness testified, however, that the Japanese had attempted to suppress the use of opium and that Japanese doctors discovered a method to cure addicts through hypodermic injec-

Claims General Can't Aid Korea P.X. Conditions

YOKOHAMA, Sept. 4 .- (INS)-Col. Henry C. Burgess, supply offi-cer for the U. S. Eighth Army, said today that Lt. Gen. Robert L. Eichelberger has neither the power nor responsibilities to improve post exchange facilities for Americans in

manded by Rep. John E. Sheridan (D-Pa.) acting chairman of the House military affairs committee, in a letter to the Eighth Army commander following an inspection of installations in Korea.

Burgess pointed out Lt. Gen. John R. Hodge commands the 24th corps occupation forces in Korea, which is not affiliated with the Eighth

Burgess said the Eighth Army procurement delivery program for Korea began with items for troop consumption in September and that instructions limit Eichelberger's province to "Korea's shoreline"

Eichelberger refused comment on the congressman's protest. Sheridan contended that post exchange facilities for soldiers in Korea were the worst the committee had seen during its world tour and that army morale in Korea was at its "lowest

Legion Of Honor To Meet Thursday

Place At First Fall Meeting In The Cathedral

Members of the Legion of Honor will resume their regular schedule of meetings in their meeting room in The Cathedral, Thursday evening, when nomination of officers for the coming year will take place, Dr. Hyman F. Frank, commander of the post announced today.

Due to the illness of Personnel Ray F. Hall, no cards will be sent to the members, the commander

Election of officers will take place at the second meeting in September, which occurs on September 19.

CONVENIENT TERMS ARRANGED

On July 10, 1946 General Electric announced

an expanded pension program to give every

employee at retirement the steady income

everyone dreams of-but few ever manage

For the average employee this will mean

a retirement income several times as large as

the annuity he could ordinarily buy. Income

at retirement, when added to Social Security

payments, will amount to about 50% of

average pay for the employee who has spent

\$100,000,000 to Start Plan

This plan provides a pension for the years

already worked at no cost to employees.

For this, the company pays the entire cost,

Thus every employee with over a year's

service has a good start on his pension at

retirement - at no cost to him. The longer

To increase this retirement income as the

years go on, employees and the company

will jointly contribute to the fund. On the

average, about two-thirds of future costs

Every Employee Eligible

Pensions are not new at General Electric.

Retirement plans were begun as early as

estimated at more than \$100,000,000.

he has worked, the bigger the sum.

will be paid by the company.

his working years with General Electric.

New Kensington, Pa	97.8%
Lowell, Mass	96.4%
Cleveland, Ohio	91.1%

1912. Over 40,000 employees now on the payroll are already covered. The new plan brings pensions within reach of 100,000 more. Every employee is eligible the day he completes one full year of service.

General Electric's Objectives

Three objectives of General Electric and worth repeating

For the public, new and better products at the fairest price that General Electric research and engineering can achieve.

For General Electric men and women, a better place to work-fair wages, steadie possible employment, and "job dividends" for work well done.

For a quarter of a million owners, a fair return on the millions in savings they have invested.

"Job Dividends"

General Electric's "job dividends" - those extras that G-E employees get in addition to wages-now include among other things, pensions at retirement, insurance, vacations with pay, awards for achievement, etc. On such "job dividends" General Electric spent more than \$35,000,000 for the year 1945.

This new pension program, from General Electric's point of view, is another way to encourage the capable and efficient men and women who aid in the company's success. With their help, even greater benefits can be produced for all.

For additional details of the plan, those interested may write for the booklet, "General Electric Pension Plan." Address General Electric, Schenectady, N. Y.

PROTECT YOUR CAR

AGAINST CORROSION Rust is only one of several actions trying to destroy four car under-nandedly. The corrosive effect of road salts and the abrasive action of flying gravel are also extremely destructive. Even in normal times it would pay to armor the underbody of your car with 3-M Underbody Protective Coating. It is a hundred times more important today when so many metal parts are irreplaceable.

NEW YORK, Sept. 4. - Lost, strayed or stolen is the so-called 'weak eastern opposition" upon which the Brooklyn Dodgers were supposed to feast down the National league stretch.

When the Dodgers returned east from their latest disastrous road trip, the Flatbush Figger Filberts had reams and reams of statistics to prove that everything would be hunky-dory once their "ferocious gentlemen" got away from the bad men of the West.

The Brooklyn tub-thumpers sold themselves on the idea that their pets would overcome the 21/2 game lead of the St. Louis Cardinals in no time at all by giving the Phillies. Giants and Braves the usual goingover while the Cards were on the

Muffed Opportunity The first part of the story ran

true to the script when the Cardinals dropped two of their first three starts away from home. Here was Brooklyn's golden opportunity to close the gap, but they have muffed it ingloriously.

The Dodgers have managed to win three out of five since returning cast, but that is not enough against the kind of opposition which has been duck soup for the Bums all season. Furthermore, instead of trampling on obliging doormats, they have been forced to fight tooth and nail in all five games,

The Dodgers' dream of easy conquest got a jolt in their first current eastern appearance when they were nosed out by the Giants on Saturday, 2 to 1. This defeat was doubly hard to take because the Cards meanwhile, were losing to the surprising Pirates.

Things Look Worse Things looked worse in the first game of Sunday's double-header when the Brooks apparently were beaten again going into the eighth inning. Here, however, the desperate Dodgers, facing their fourth straight defeat since their gallant stand in St. Louis, showed their inherent 10:15 greatness. Life-saving homers by Dixie Walker and Ed Stevens turned the tide, winning the game 3 to 1.

Brooklyn also had a tough time . ., because his winning Sunday's second game, 2 11:49 career parallels Jim Braddocks . . . to 1. You might say that winning 12:09—Midnight Club Retirement, dockworker, and comethose close ones is the hallmark of 12:15—Midnight Club 12:30—Music You Want Now to carry it through a championship club, but on the other hand the strain of all these photo finishes may be beginning to tell on the club's younger players. Signs of such a development

could be noted in Philadelphia Monday. The Phils have been pushovers for the Dodgers all season, and they played dead as usual in the first game against Rube Melton. However, the 3 to 2 win scored

by the Phillies in the second game may be a portent of direr things to come. Not only are they right back where they started in their drive to overhaul the Cards but they realize that there is plenty of 11:15-Baseball Scores tough sledding ahead against the 11:20—Don Gardner, Sports to-called pushovers of the East, 12:00-News igures or no figures.

The same thing goes for St. Louis. The same thing goes for St. Louis. Servo's Title men in dropping two out of three to the tail-end Pirates, and they were all out in beating the lowly Reds twice Monday.

Grid Fatality At Wilberforce

first fatality of the 1946 season. Will Seek Probe Of Court-Martial System In Italy

PITTSBURGH, Sept. 4 .- (INS)-Congressman James G. Fulton (R) Pa., today planned to ask General of the Army Dwight G. Eisenhower for a full investigation of the army's court-martial system in the Italian Peninsula Base Section. Fulton's demands for the inves-

tigation followed the army' revelation that a 21-year-old Pittsburgh soldier, a combat veteran, was sentenced to 30 years for being AWOL eight days last Christmas in Italy. The army disclosed that during the eight days, Privates James W. Jones, and a companion, stole three army vehicles on a trip from Foggia to Milan.

Jones' fate was a mystery to even his family. His mother, Mrs. D. A. Jones said she tried for six months to get an explanation from army authorities. She said her requests were simply ignored. She did learn from her son, how-

charge for seven months before being court-martialed. Mrs. Jones appealed to Congressman Fulton to find out what had happened to her boy.

ever, that he was held without

Bananas Still Scarce In City

Any hopes of having a bountiful supply of bananas for the average family's enjoyment seem dim, 'according to the viewpoint of fruit wholesalers in the community. The luscious yellow-skinned fruit

pounds or one box of the fruit, shopper much to carry home. out, is scarcity of shipping space and delay in reconverting ships to peacetime traffic to the South and Central American countries.

Shortage Of Manpower **Affects Army**

WASHINGTON, Sept. 4 .- (INS)-The army prepared today to draw up plans for a campaign against the critical shortage of manpower

An informal conference to prepare suggestions for submission to Chief of Staff Eisenhower was held by representatives of G-3, plans and training; G-1, personnel and administration, and the war department manpower board.

At the meeting the estimated requirements of the various staff sections and the armies in the coninental United States were studied and revised. A G-3 representative said he believed that the estimates submitted could be cut down somewhat, despite the fact they were supposed to represent a bare mini-

Army Civilian Cut

Chief cause of the shortage is the budget bureau order of last week that army civilian personnel must be cut from 572,579 to 519,500 by October 1. But there are additional setting the date. . (International) causes affecting uniformed personnel, one of which is the new terminal leave bill.

cers are forced to give enlisted men 30 days leave a year, which cuts their effective time. In addition the 18-month draft period cuts effective-

forming essential jobs.

request for more men in the army evening's service, Rev. and Mrs. This is unlikely as the army is Bollback, will present violin and committed to a force of one million trombone numbers. 70 thousand by July 1 next year and budget allocations will not allow any considerable increase.

This move also would call for an increase in the draft, which would meet strong opposition on capitol population. Already the army has asked for 25,000 men this month, and probably will ask the same number next month. Present plans call for 185,000 selective service inductions before next March 31.

Health Talks By DR. W. A. WOMER City Health Superintendent

ALL BUT ONE

Sometimes we see a beautiful well kept street. The lawns are all in good shape. The back yards are all neat and tidy. The premises present a beautiful appearance; all but one. One property is not neat and tidy The lawn is not well kept. Perhaps there is a dirty smelly chicken

This one untidy place spolis the whole street.

Maybe the tenant is unable to keep the place in order. Maybe it due to lack of civic pride. Anyhow the whole community is spoiled by this one place.

About the only hope is that the place will change hands. Some one may move in who will take proper

That is one way in which public sentiment and free enterprise works
